Nazarbayev University Library with a total area of 10 000 sq. m. offers superior conditions for the NU community, including new computer rooms, multimedia rooms, classrooms for group activities and individual study, equipment for inclusive education, structure rooms, offices, network hubs, Academic IT Helpdesk, and a meeting room. Patrons, who are researchers, students, or researchers, who are parents, can use the Family Room to study with their children. The library collection is available in open access, and is monitored by means of RFID technology with the opportunity to use a self-service kiosk for circulation, both factors which greatly increase the possibility for using the library collection. In addition, a computer lab with 195 “thin client” computers is located in the library, allowing students to use virtual desktops and log in to any computer, 51 PC that allows to use CD/DVD materials and 24 PC with OPAC (Online Public Access Catalog). The library also provides patrons with access to print and self-scanned materials on specialized book scanners by using ID. At the disposal of the readers, there are two types of devices for reading electronic books, which are issued on reader's account. Visitors and Alumni can use mobile apps, DVDs, magazine and e-resource in the library.

### About Center

The Career and Advising Center serves as a full-service organization with the following main functions:

- Provide career advising through scheduled appointments and drop-ins with CAC staff members to assist NU students and alumni with internships, job search, interview skills, resume review, alumni issues, and graduate application.
- Educate students about experiential learning programs (internships, volunteering, part-time employment) while at NU.
- Facilitate Internship Programs in cooperation with NU Schools.
- Provide services for companies looking to hire NU students and Alumni.
- Acquaint students through career workshops and related activities with job-search strategies and tools to present themselves effectively as candidates for employment after graduation.
- Assist NU students reflecting their abilities, skills, values, and motivations.

- Assist NU students and Alumni to identify graduate Program and School; connect students with graduate schools through campus info sessions and presentations.

NATIONAL LABORATORY ASTANA (NLA)

The private institution «National Laboratory Astana» (NLA) was established in 2015, under the Government of the Republic of Kazakhstan and the Nazarbayev University authors.

Our team of scientists work in collaboration with the world’s leading research and educational institutions in USA, EU, CIS, and APEC countries and offer extraordinary range and diversity of research opportunities aimed at discovering and communicating new knowledge. We look for ways to apply our research and to help meet the challenges of our century, whether this means working with challenges in the sciences, energy and advanced materials science, or fostering greater understanding of the global environment.
